Letter Of Recommendation

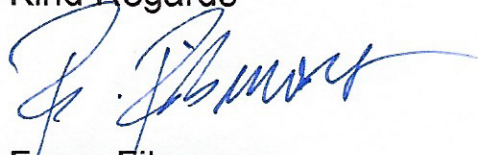

With the purchase of a 70 tons battery formwork, we started our business relationship with GBI- Trade LLC at the beginning of 2020.

The task included the disassembly, packing and transport of the purchased object to our customer in a Mediterranean country.

The experience gained in handling the business was first class. Not only was the preparation of the sales contract exemplary, but also the execution of the extensive dismantling, packing and land and sea transport were carried out in high quality and on time.

We are convinced that we have found a reliable partner in the business transaction with Russia.

Kind Regards

Franz Filzmoser
Managing Director
